To Whom it May Concern:

It is with great pleasure that I recommend Jacquelyn Sarowatz for a teaching position. My name is Caitlin Carnes and I am a 5th grade math and science teacher at Avon Intermediate School West. I had the privilege of working with Jacquelyn for 8 weeks in my classroom as our student teacher.

Jacquelyn was a wonderful addition to our classroom. She oozes creativity and fun and draws the students in. She does a wonderful job at maintaining a fun classroom environment while holding students to classroom expectations. I felt very comfortable early on giving her responsibility because she did such a wonderful job.

Jacquelyn came in fully acknowledging she was learning and was so open to feedback and asked so many wonderful wonderful questions. She wanted to do her absolute best and keep things as normal as possible for students. After she taught a lesson, she always asked for feedback. She lesson planned with me, taught, co taught, led units and did them all beautifully.

I think Jaquelyn would make an excellent addition to any school and they would be lucky to have her! She is a very hard worker and a team player. She wants what is best for her students and does not mind putting in hard work. She is also very positive and so much fun to be around. I know she will do wonderful things in her career.

Sincerely,

**Caitlin Carnes**
